**CREATE A BETTER BRAND, CREATE A BETTER SHIRT!**

EMBROIDERY IS THE ART OF STITCHING YOUR DESIGN ONTO THE SHIRT USING OUR HIGH TECH COMPUTERISED EMBROIDERY MACHINES. THE FINISH IS SLEEK AND PROFESSIONAL, HARDWEARING AND DURABLE. CONSIDERED BY MANY AS THE ONLY PROFESSIONAL LOOKING FINISH FOR A DESIGN, IT IS THE OBVIOUS CHOICE FOR YOUR WORKWEAR, SPORTS KITS AND SCHOOL UNIFORMS. OUR STATE OF THE ART EMBROIDERY MACHINES ARE CAPABLE OF STITCH UP TO 1000 STITCHES A MINUTE WITH ABSOLUTE ACCURACY, AND CAN STITCH UP TO 16 DIFFERENT COLOURS FOR ANY ONE DESIGN.

**FEATURES**

Having the flexibility to embellish thick or odd shaped garments is a feature that can not be found in many other imprint methods. As well as the ability to personalize each garment with names or numbers are one of the many flexible features that embroidery offers.

To ensure quality and consistency we use durable high performance threads that will create a professional look for years to come.

With hundreds of vivid thread colors, our goal is to create a lasting impression that will allow your garments to stand out and make a statement.

**BENEFITS**

Embroidery is a great way to show off your organization's logo. Embroidered logos give apparel such as dress shirts, polo shirts, sweatshirts, jackets and caps a professional look and feel.

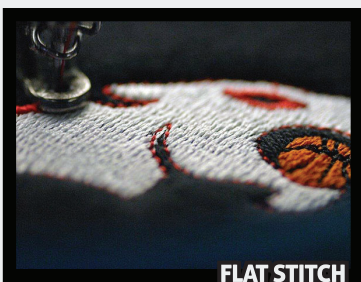

Many organizations, family reunions, clubs or teams enjoy using customized shirts and hats as a symbol of their group membership. A group or family name can be easily embroidered on apparel to suit the needs of the group.

Embroidery is a cost-effective solution to personalizing clothing. Essentially, any graphic or word can be embroidered onto clothes.

**APPLICATION**

Embroidery is an added imprint method that does not require heat to cure or dry. When dealing with "man-made" fabrics, heat is a constant struggle with other imprint methods. With embroidery, there is no need to worry whether the inks cure, dry or adhere to the fabrics. Depending on the project and the materials, embroidery is one of the few imprint methods that can work with just about any garment fabric.

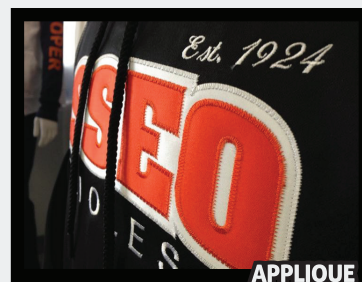

Embroidery can serve a multitude of purposes and can be flexible depending on your project and your embroidery needs.
